

BRAINS.ORG Presentations with Dr Kathie F Nunley
Differentiating w/ Layered Curriculum® & A Student's Brain
PRESENTATIONS, WORKSHOPS & CONFERENCE KEYNOTES for 2018

Prices are Flat Rate, "All INCLUSIVE - includes the presentation, handout masters and ALL expenses related to travel (air, hotel, ground transportation, meals, etc)

Note: *Prices are for MOST of Continental US & Canada. Other regions may require different pricing based on distance

Mini Sessions (Faculty Meetings, PTO Parent Nights, etc) (60-75 minutes)

Back for 2018! Short, Affordable Faculty-Meeting- Sized Presentations

Topics:

- **Layered Curriculum In a Nutshell**
- **Unleashing Intelligence in the 21st Century Brain**
- **The Adolescent Brain: How DOES it work?**
- **What's Best for the Brain at Any Age**
- **Using Non-Aversive Behavior Management to Extinguish Severe Maladaptive Behaviors**
- **Behavior Management Techniques for Children on the Autism Spectrum**
- **Differentiating the High School Classroom**

Cost: As low as \$975.00* (includes presentation and all costs* related to travel)

Half-Day Sessions (2 - 3 hours)

Morning OR Afternoon sessions designed for individual schools and /or districts, tailored for K-12, or specific to elementary / secondary.

Differentiation in the Middle and High School Classroom - Maintaining Standards and Your Sanity:

This humorous 3-hour presentation highlights the research behind why the 11 - 23 year-old brain requires a differentiated platform for learning. Included are simple steps anyone can take to start differentiating any subject, any grade level using Layered Curriculum. Perfect for secondary teachers looking for a manageable way to work with diverse populations.

Don't Just "Flip" Your Classroom, Tip it Sideways Instead: Layered Curriculum In Today's Blended Learning Environments

This fun and information-packed 3-hour session gives an overview of Layered Curriculum, followed by how to turn your classroom into a flexible blend of face-to-face instruction, independent online learning and interactive projects.

What's Best For the Brain - at any age

This information-filled session discusses the developmental stages of the brain from pre-natal until end of life. Learn what factors influence how the brain is shaped, develops and can be improved at any age. This session includes how to work with today's fast-paced, electronic-oriented, sometimes frustrating, but always fascinating teenager. You'll discover how the new Western diet, the high use of visual electronics and sleep-deprivation affect the brain. Practical suggestions offered for both classroom and home.

Dealing with and Deleting Difficult Behaviors

This practical session gets to the nitty-gritty of how to proactively manage problem behaviors, particularly for students on the autism spectrum. Emotional meltdowns, destructive behaviors, maladaptive social interactions and more. Learn how to be pro-active in a plan to help emotional chaotic children regain their center. Details given as to how to set up DRO (non-aversive) behavior schedules to get rid of even the most problematic behaviors in children. Practical suggestions offered for both classroom and home.

Cost: As low as \$1825.00* (includes presentation and all costs* related to travel)

Optional Books for participants:

- Include a copy of the text, "Layered Curriculum" \$16/participant
- Include a copy of the text "Enhancing Your Layered Curriculum Classroom" \$10/ participant.
- Include a copy of the text "A Student's Brain" \$16/participant

**Note about costs: My rates are flat fee rates. Prices listed here are for MOST regions of the continental US and Canada. Distance from airport and available flight schedules can alter fees. Email date and location for specific cost for your school.*

Full Day Sessions (5 hours)

minimum of 45 participants

WS# 3 - 6 The WHY and HOW of Differentiating Instruction Using Layered Curriculum®

This full day workshop on differentiation begins with a fun and humorous overview of how the brain learns. The biology is then incorporated into Kathie Nunley's Layered Curriculum®, the easiest way to differentiate and blend technology into instruction in mixed-ability classrooms while maintaining high standards. **This workshop can fit a K-12 audience or tailored for specifically for elementary or secondary**

Part I: A Student's Brain: Why it needs Differentiated Instruction! (3 hours): There are four key issues coming out of brain imaging that are of particular interest to educators. The wealth of new information is causing many in education to re-think the way we deliver instruction. Discover some very simple ways to make teaching more brain-compatible and more fun for both student and teacher.

Part II: Layered Curriculum® (2 hours): Today's schools and classrooms can be overwhelming in their diversity. The secret to success is establishing and maintaining more student-centered programs of learning while integrating a blend of technology and face-to-face instruction. Based on current brain research, Layered Curriculum is one of the easiest ways to differentiate instruction in any classroom. Simple, practical and easy to adapt, Layered Curriculum allows teachers to juggle learning styles, multiple intelligences, cultures, and mixed-abilities in one room without sacrificing standards. This 3 layered instructional model leads all students to higher levels of thinking, holds students accountable for learning and encourages success for even the most reluctant learners.

COST*

<u>WS3</u>	\$2950 plus \$10/participant	<u>1 book package.</u> Enhancing Your <i>Layered Curriculum Classroom</i> included for each participant.
<u>WS4</u>	\$2850 plus \$16/participant	<u>1 book package.</u> <i>Layered Curriculum TEXT</i> included for each participant.
<u>WS5:</u>	\$2750.00 plus \$32/participant	<u>2 book package.</u> <i>A Student's Brain & Layered Curriculum TEXT</i> included for each participant.
<u>WS6</u>	\$2650.00 plus \$49/participant	<u>3 book package.</u> <i>Layered Curriculum TEXT & WORKBOOK & A Student's Brain</i> for each participant

Conference Keynote Addresses & Breakout Sessions (1- 3 hours)

Keynotes are available on a wide range of topics and can be tailored to fit K-12 audiences, administration, or parent groups. Suggested Titles include:

- Differentiation in the High School Classroom - Maintaining Standards and Sanity
- Dealing With and Deleting Maladaptive Behaviors in the Classroom and Home
- The Adolescent's Brain: What ARE They Thinking?
- Insights Into Intelligence
- What's Best for the Brain from Pre-Natal to Advanced Age
- Layered Curriculum® - For Teachers with More than One Student in their Classroom

Any Keynote may be paired with a breakout session for **up to 3 hours of presentation time** (morning or afternoon)

Cost: As low as \$1825.00* (includes presentation and all costs* related to travel)

**Note about costs: My rates are flat fee rates. Prices listed here are for MOST regions of the continental US and Canada. Distance from airport and available flight schedules can alter fees. Email date and location for specific cost for your school.*

TO ORDER a PRESENTATION

1. Send us an email with the type of presentation you want, date and location. (Kathie@brains.org)
2. We will email you a presentation proposal and a service agreement) & will hold your date for a week.
3. Sign and return the service agreement.
4. We will issue you a pro forma invoice which you can use to secure a Purchase Order.
5. We will need a Purchase Order at least 60 days prior to the presentation.
6. The Brains.org Bookshop will be in touch near the date to finalize numbers and ship books
7. A confirmation packet, including handout masters will be emailed to you 1 month prior.

What you will need to provide on the day of the workshop

1. A projector and computer set-up that will take my thumb drive (w/ adobe pdf slides)
2. A Clicker to advance the slides that works throughout the room.
3. A table at the front with the projector
4. A **cordless** mic if the room will require a microphone.

All travel arrangements will be arranged and paid by Brains.org.
